# SatyaPrakash

github.com

Noida, Uttar Pradesh, IN linkedin.com satyaaa768@gmail.com Mern Full Stack Dev satya.in

Software Engineer with **8 months** of experience specializing in frontend development. Proficient in React.js, Node.js, and JavaScript, with expertise in building scalable web applications. Experienced with databases such as MongoDB, PostgreSQL like Cloudinary.
Passionate about leveraging technology to drive innovation, optimize performance, and enhance user experiences

## SKILL

| | |
|---|---|
| **Tools & Technologies** | HTML, CSS, JavaScript**,** python ,Java, oops Git, GitHub, Vercel, Figma, AWS, JQuery, webpack, Cursor AI , OpenAI API, Lovable |
| **Frameworks & Libraries** . | React.js, TypeScript, Node.js, MongoDB, PostgreSQL, Tailwind CSS, Bootstrap, Redux.js, Express.js, Mongoose.js |

## WORK EXPERIENCE

**Mern Full Stack Developer** *WAYONE IT SOLUTION* *Delhi*

**JAN 2026 – Present**

- **Designed and developed scalable RESTful APIs using Node.js and Express.js**, implementing properCreated secure, scalable REST APIs
- **Built Lead Management System with Activity Logs & Follow-up module**, enabling complete tracking ofImplemented rigorous testing and debugging to guarantee software reliability and effectiveness.
- **Implemented role-based authentication and authorization (Admin, Counsellor, Caller)** using JWT,
- **Integrated MongoDB with optimized schema design**, handled data modeling, indexing, and performance tuning for better query execution.
- **Worked on full-stack features including frontend-backend integration**, API validation, error handling, email service integration, and deployment troubleshooting.

**Mern Full Stack Developer** *WTF GYMS* *Noida*

**July 2025 – Dec 2025**

- Minimized member absences by coordinating timely notifications for group class schedules.
- Created secure, scalable REST APIs with Node.js, Express.js, and JWT authentication methods.
- Improved PostgreSQL database performance via strategic query management and schema optimization.
- Implemented rigorous testing and debugging to guarantee software reliability and effectiveness.

**StudyNotion**

- Developed a learning platform using React.js, Tailwind CSS, Node.js, Express.js, MongoDB, Redux Toolkit, JWT, Cloudinary, Razorpay.
- Built a full-stack edtech plateform with role-based dashboard secure JWT, auth and payment integration via rajorpay.
- Developed res UI with React, tailwind CSS, managed global state using Redux Toolkit, integrated cloudinary for media uploads.

- Desinged RESTful APIs using Express and MongoDB, implemented features like course enrolment, videoplayback and adminlevel analytics

## EDUCATION

---

**Ajay Kumar Garg Engineering College** **July 2020 — June 2024**

*Bachelor of Technology in Computer Science (Data Science) — 7.0 CGPA* *GAZIABAD, Uttar Pradesh*

**Coursework:** Data Structure and Algorithms, Operating System, Database Management Systems, Computer Networks.
